

# Big Picture on Testing Task Execution on Jira

By Nidish Rao

Steps for execution of Big Picture Task on Jira follow the below steps :

**Step 1:** Creating a New Project : Select as Scrum.

Project templates

### Software development

Plan, track and release great software. Get up and running quickly with templates that suit the way your team works. Plus, integrations for DevOps teams that want to connect work across their entire toolchain.

	<b>Kanban</b> Visualize and advance your project forward using issues on a powerful board. >
	<b>Scrum</b> <small>LAST CREATED</small> Sprint toward your project goals with a board, backlog, and roadmap. >
	<b>Bug tracking</b> Manage a list of development tasks and bugs. >

## Step 2: Creating a New Project : Select a company- managed project

← Back to project templates

### 1 Project template

**Scrum**  
Sprint toward your project goals with a board, backlog, and roadmap.

[Change template](#)

### 2 Choose a project type

⚠ You'll need to create a new project if you decide to switch project types later.

**Team-managed**

Set up and maintained by your team.

Select a team-managed project

**Company-managed**

Set up and maintained by your Jira admins.

Select a company-managed project

The last project you created was a company-managed project

## Step 3: Creating a New Project- Adding name of project as Big Picture Testing with Key : “BPT”

### Add project details

You can change these details anytime in your project settings.

Name

Big Picture Testing

Key ⓘ

BPT

☐ Share settings with an existing project

☐ **Connect repositories, documents, and more**  
Sync your team's work from other tools with this project for better visibility, access, and automation.

Template

**Scrum**

Sprint toward your project goals with a board, backlog, and roadmap.

Type

[Change type](#)

**Company-managed**

Work with other teams across many projects in a standard way.

[Cancel](#)

[Create project](#)

**Step 4:** Creating a new Version in Backlog (Big Picture Version 1)

## Create Version

Project\*

Big Picture Testing

Name\*

Big Picture Version 1

Description

Version for Big Picture Testing

Start Date

6/Oct/22

Release date

11/Oct/22

Create

Cancel

## Step 5: Creating a new Epic in Backlog (Big Picture Epic 1)

### Create Epic

Import issues

Project\*

Big Picture Testing (BPT)

Issue type\*

Epic

[Learn more](#)

Epic Name\*

Big Picture Epic 1

Provide a short name to identify this epic.

Summary\*

Epic for Big Picture on testing
